

December 9, 2015

The Optical Society of Southern California invites its members and friends to our
**Annual Corporate Member
Appreciation Event**

Featuring a presentation on:

**"Starting A Business In The Current
Environment"**

Milton Chang, Incubic

The speaker will share insight based on his experience as entrepreneur, CEO, and angel investor. He will describe what makes startup companies successful, how to grow a business, and how investors make investment decisions. He will then describe in some detail a business model that is appropriate for starting a hardware company in today's environment. The presentation ends with advice for engineer on how to prepare for a career as an entrepreneur while working on the job.

About our Speaker: **Milton Chang** is the author of [Toward Entrepreneurship](#). (Read reviews at www.miltonchang.com). He was president of Newport and New Focus, which he took public. And the companies he incubated resulted in six IPOs and seven acquisitions.

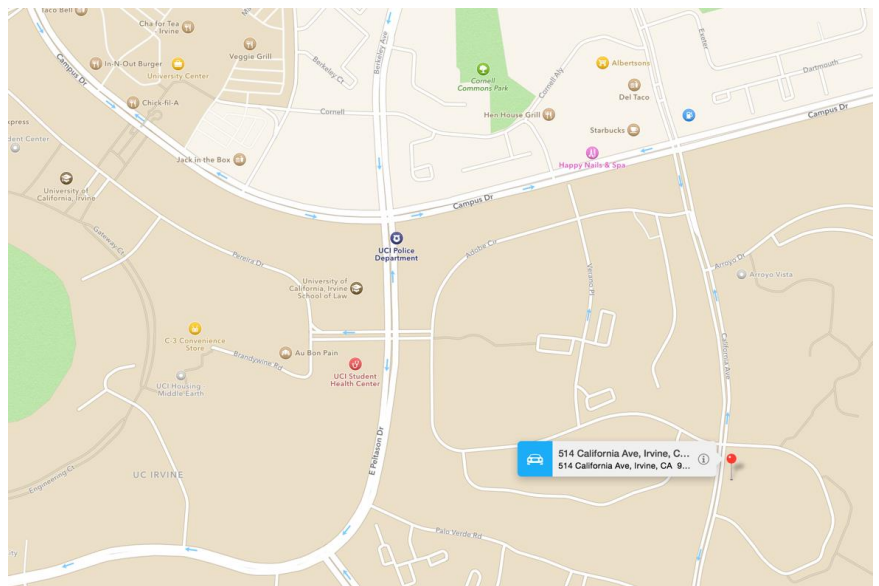

He is a Trustee of the California Institute of Technology and has recently served on the SEC Advisory Committee on Small and Emerging Companies. He writes a monthly business and management column for the Laser Focus World and quarterly for the IEEE Technology and Engineering Management Society Review.
